PROJECTS

E Learning App, React js E Learning App
HTML - CSS - Material UI - JavaScript - React.js - React query - Axios
• Built an **E-Learning platform** with **React** and **React Query**, empowering instructors to easily manage courses and enrollments, while providing students with intuitive course search and profile management capabilities.
• My role included seamless integration with a .NET-developed API
• I was directly responsible for implementing the user interface designs provided by the UI designer, ensuring a responsive and intuitive user experience.

My Time, MERN full Stack App
UI: Figma - DEV: HTML CSS Tailwindcss JS Reactjs Nodejs Express mongodb Nextjs Firebase
• I designed and developed the frontend for a **Personal Task Management** web application using **React** and **Next.js**, leveraging **Redux** for robust data management.
• The application provides an effective tool for organizing tasks by **ease and difficulty**, and for displaying work areas based on specialties, all within a **MERN Stack**-based system.

Simple E commerce Gold, E-commerce Reactjs App
HTML - CSS - Tailwind CSS - Daisy Ui - JavaScript - React.js
• Designed and developed an e-commerce application from scratch, providing a full shopping experience for gold accessories.
• The application includes a main landing page, a detailed products catalog, a shopping cart to manage selected items, and a secure checkout flow.
• The project demonstrates proficiency in building scalable front-end solutions and integrating with external data sources to power a complete e-commerce ecosystem.

Message APP, reactjs message app
HTML - CSS - React.js - Firebase
• Developed a real-time messaging application using **React.js** for the frontend and **Firestore** for backend services.
• Utilized **Firestore Authentication** for user login and **Cloud Firestore** for storing and retrieving messages.
• Built a responsive and intuitive user interface with **HTML** and **CSS**.
