

Sara Mohamed Abdullah Mohamaden

Front-end Engineer

saramohamaden1234@gmail.com · [+20 01021135168](tel:+201021135168) · Tenth of Ramadan City, Egypt · github.com/saramohamed124 · linkedin.com/in/sara-mohamed-5703b524a

OBJECTIVE

Result-oriented Frontend Engineer and BIS top graduate (Ranked 1st, GPA 3.9/4.0) with a strong foundation in Clean Code principles and Maintainable Architecture. Experienced in building scalable web applications using React.js and Next.js, with a focus on creating Reusable Components and optimizing performance.

EDUCATION

English Diploma in Business Information Systems (Postgraduate) — Helwan University – Zamalek Campus | 10/2025 – 07/2026

- Core Focus: Python Programming, System Analysis, and IT Integration.
- Key Competencies: Scientific research, teamwork-based projects, and professional presentations.
- Schedule: One-year intensive program conducted in English.

B.Sc. in Business Information Systems — Higher Technological Institute | 2021 – 2025 | Tenth of Ramadan City, Egypt

- Honors: Excellent with Honors (GPA: 3.9/4.0) – Ranked 1st in Department.
- Graduation Project: [ITQAN Corporate Training Platform \(MERN Stack\)](#) — Team Lead & Full-Stack Developer.
- Tech Stack: MongoDB, Express.js, React, Node.js, Figma.
- Led a team using Agile methodologies, conducted code reviews, and enforced front-end engineering standards.
- Designed intuitive UI/UX in Figma and developed RESTful services with a responsive React frontend.

EXPERIENCE

Front End Developer (Full Time) — DUWIC05/2026 – Present | Remote, Cairo

- Developed interactive and responsive UIs using React.js and Tailwind CSS with a focus on clean, high-performance code.
- Managed tasks and workflow via Jira in close collaboration with the development team.
- Applied best practices for file structure organization and writing reusable, maintainable code.

Frontend Engineer (Project Based) — Masar Altmaioz06/2024 – 10/2024 | Remote, Saudi Arabia

- Project: Track Medical System — engineered a comprehensive medical management system with advanced RBAC and secure Protected Routes.
- Developed high-performance, responsive web pages and reusable components using React.js.
- Integrated frontend with RESTful APIs using Axios for seamless data flow and dynamic content.
- Implemented secure user authentication with Firebase (OTP) and integrated interactive maps using React Leaflet.
- Collaborated in an Agile environment using Git/GitHub and ClickUp.

Frontend Developer (Freelance) — DR Hany Dentist Clinic System02/2024 – 05/2024 | Remote

- Designed and implemented key UI components for a dental clinic system using HTML, CSS, and React.js.
- Focused on creating a user-friendly experience and ensuring cross-browser compatibility.

INTERSHIPS

Summer Training — Information Technology Institute (ITI) | 08/2023 – 09/2023

Skills: HTML · CSS · Bootstrap · JavaScript · OOP in JavaScript · ES6 · Node.js · Angular · React.js

PROJECTS

FurniStyle — E-commerce Furniture Web App (Next.js & Redux Toolkit) [Live Demo](#) | [Source Code](#)

- Managed full development lifecycle using ClickUp for task tracking and milestone management.
- Implemented professional Git Flow: feature branches, pull requests, systematic refactoring, and seamless merging.
- Built high-performance platform using Next.js for SEO, Tailwind CSS, and shadcn/ui.
- Hybrid State Management: Redux Toolkit for complex global data + Zustand for lightweight UI state.
- Integrated RESTful APIs via Axios for real-time inventory synchronization and secure catalog management.

My Time — Personal Task Management & Productivity SaaS (MERN Stack) [Live Demo](#)

- Engineered a SaaS platform that analyzes user fatigue levels to provide personalized task recommendations.
- Developed dynamic logic to categorize and suggest tasks based on real-time energy levels and difficulty.
- Architected high-fidelity Figma interface featuring dashboards for fatigue tracking and task visualization.

- Built scalable solution using React/Next.js, Node.js, MongoDB, and Firebase for secure authentication.
- Leveraged Redux for real-time synchronization of fatigue metrics and task data for 40+ active users.

E-Learning App — Interactive Course Management Platform (React.js) [Live Demo](#) | [Source Code](#)

- Engineered robust data synchronization using React Query for efficient course management and real-time enrollment tracking.
- Spearheaded seamless integration of frontend components with a .NET API for secure and reliable data flow.
- Translated high-fidelity designs into responsive, user-centric interfaces using Material UI.
- Developed reusable components for advanced course search and dynamic profile management.
- Leveraged Axios for streamlined API communication with best practices for error handling and performance.

Brain Game — Interactive Puzzle Mobile App (React Native & Expo Router) [Source Code](#)

- Managed lifecycle via feature/onboarding branch with a systematic version control strategy.
- Designed file-based routing system with Expo Router for clean separation of game and logic modules.
- Built high-fidelity Onboarding flow with persistent state handling via AsyncStorage.
- Implemented responsive UI with Tailwind CSS (NativeWind) and optimized performance using React Compiler.
- Integrated Expo-Audio and SVG assets for interactive sensory feedback and smooth gameplay.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, React Native (Foundations & Mobile UI), Redux Toolkit, Zustand, Tailwind CSS, shadcn/ui, Material UI, Bootstrap, AngularJS (Foundations)

Tools & Technologies: Git & GitHub, Jira, ClickUp, Figma (UI/UX Design), RESTful APIs (Axios), Firebase (Authentication), Expo Router, AsyncStorage, React Leaflet, React Query, Unit Testing (Learning)

Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Clean Code Principles (SOLID), Maintainable Architecture, Reusable Components Design, Responsive Web Design, Agile Methodologies, Role-Based Access Control (RBAC)

LANGUAGES

Arabic — Native | English — B2
